📍 184 Avtar Enclave, Paschim Vihar,
New Delhi- 110063

Present Status

Recently retired medical professional, happy and healthy, grandma (Nani) of the cutest little Baby girl Mehak, mother of a scientist working at Amazon in Germany (me, Gurjyot), wife to a well-respected doctor and home ruler/maker.

Present Status

My mother's biggest achievement has been her ability to balance her responsibilities towards the human condition, as a medical professional, while still making sure everyone in the family eats a healthy home-cooked meal every day of their lives. In addition to that, she does her daily sewa towards Waheguru Ji without fail and is probably the secret not just behind her husband's success but also behind the success of her kids. She is an immense source of love and high morals always ready to pick up anyone who feels broken medically or psychologically and giving them a fresh dose of energy and enthusiasm towards facing the realities of everyday life.

Spouse

Dr. Gurinder Mohan Singh

DOM: 29 | 11 | 1981

Memories

“Am thankful to S.M.S College for being such an important stepping stone in this beautiful god-gifted life of mine.” Contributions: I think every art or science project that my late sister or I have ever submitted at the school was in reality my mother's contribution to our lives. Thanks, Mom, for being a supermom! How will you ever find a bahu who could fill your amazing shoes? Just kidding, Rab Rakha!! ;)
